PERSONAL DETAILS

Father's Name : Sagayaraj J
Date of Birth : 12/05/2006
Language : Tamil, English
Nationality : Indian

I am B.Tech Student specializing in Artificial Intelligence and Data Science . web developer Strong creative and analytical skills.

PROJECTS

Real-Time Crop Growth Monitoring and Stage Prediction System

This project uses machine learning and computer vision for real-time crop monitoring. Fixed cameras capture images, analyzed to identify growth stages. Insights are presented on a web-based dashboard withrecommendations. This system improves crop health, resource efficiency, and yields.

TripForge – AI-Powered Journey Planner

Developed a smart AI-powered tour booking web application to simplify travel planning and package reservations. The system allows users to search, filter, and book tour packages efficiently with AI-driven recommendations and chatbot assistance.

CERTIFICATION

- Completed NPTEL in "Introduction to Internet of Things" with 58%.
- Certified Value Added Courses Machine Learning with AI Applications.

CO-CURRICULAR

- Participed in National Level Women's Hackaton "TechDivation", Panimalar Engineering College – Chennai.
- Led a team shortlisted for the intercollege SIH Hackathon.

INTERESTS

Web development, Generative AI Machine learning.
